A student comes to you with a career-related question:
- Resumes, LinkedIn, cover letters, and/or professional portfolio
- Interviewing
- Networking
- Job and internship search
- Career and life design (what can I do with my major, how can I advance my career, what careers should I pursue, etc.)

Refer to a Career Professional: Use the referral link on the Faculty/Staff page in Career Launch to refer a student to Career Services. Depending on the student’s major, a Career Services team member will reach out to the student to encourage them to set up an appointment and continue the conversation about the topic(s) the students are interested in exploring or discussing with a career professional.
